WALL PLATE BRACKETS (TYPE GEMINI)

bonfix[®]
the fitting factory

INTRODUCTION

BONFIX B.V. supplies brass wall plate brackets under the BONFIX brand name.

TECHNICAL INFORMATION

The technical specifications are based on the current industry and regulatory status. BONFIX reserves the right to modify technical specifications without prior notice. No rights can be derived from the technical information provided in this brochure.

GENERAL

BONFIX wall plate brackets consist of a bracket with two wall plates designed to facilitate the installation of wall-mounted mixer taps. The bracket provides a fixed centre-to-centre spacing of the two wall plates.

PRODUCT USAGE

BONFIX wall plate brackets are designed and manufactured for use in drinking water/sanitary systems. Other uses, depending on pressure/temperature and medium, may be permitted but require prior written approval by BONFIX.

TECHNICAL SPECIFICATIONS

The BONFIX wall plate brackets are manufactured from premium quality brass CW617N (CuZn40Pb2). The wall plates are especially designed for the connection of copper pipe in compliance with EN 1057 with a wall thickness as specified in **kiwa** ⌘ BRL-K760/3. The wall plates are provided with a cylindrical thread in conformity with ISO 228. The brackets satisfy the European norm 2002/95/CE RoHS. The brackets are surface-treated by ecological galvanization.

QUALITY MARK

The BONFIX wall plate brackets bear the **kiwa** ⌘ quality mark.

INSTALLATION INSTRUCTIONS

For the assembly of BONFIX wall plate brackets, refer to the technical documentation of capillary fittings.

Only brass or plastic cylindrical inserts should be used for sealing the wall plates on the bracket. Excessive tightening or use of incorrect inserts may cause leakage of the wall plate for which BONFIX cannot be held liable.

Use appropriate tools for installation and prevent damage. The product information is non-binding and subject to change. It is the responsibility of the designer to select products that are suitable for the desired application.

WARRANTY AND LIABILITY

Warranty and liability apply as per our general terms and conditions.

Damage caused by stress corrosion is not covered under product warranty.
